Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I can't urge you strongly enough NOT - REPEAT NOT - to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan - and the organizations who whore for it - are NOT interested in keeping the USF fair. These organizations are fronts for the phone industry, working to ensure that fees and 'unrecovered taxes' are unduly borne by the consumer, rather than ensuring that costs are borne evenly by all.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. They would be paying into a system that has already received enough funds to complete it's mandate and are simply looking for an additional handout while providing excuses to avoid completing the task at hand.

I urge you to keep the USF fair, and IGNORE the Fair Share Plan. I urge you to utilize all the powers of your position and organization to be a better watchdog on an industry that thinks nothing of abusing the fee and tax system to shirk responsibilities for improvement.

Thank you, and best of luck in your new position.
